Voluntary Results Feedback Form

➤ I am an examiner in Workgroup: Example: 3620 (optional)

➤ Relevant prior art **found**, search results used as follows:

- ☐ 102 rejection
- ☐ 103 rejection
- ☐ Cited as being of interest.
- ☐ Helped examiner better understand the invention.
- ☐ Helped examiner better understand the state of the art in their technology.

Types of relevant prior art found:

- ☐ Foreign Patent(s)
- ☐ Non-Patent Literature
(journal articles, conference proceedings, new product announcements etc.)

➤ Relevant prior art **not found**:

- ☐ Results verified the lack of relevant prior art (helped determine patentability).
- ☐ Results were not useful in determining patentability or understanding the invention.

Copyright 1998, IEE

Abstract: We study how performance requirements may improve the working of a distribution channel when the **retailer** is better **informed** about demand conditions than the manufacturer. Performance requirements means that the manufacturer and retailer agree... suboptimally on the other. Between the two partial options, service requirements are better than price requirements in **aligning** the interests of the manufacturer and the retailer, whereas price requirements are better at inducing...

PAGE 2442 . 137 PAGES

THE DECISION-MAKING PROCESS OF SMALL SPECIALTY STORE BUYERS AS RELATED TO SELECTION CRITERIA, INFORMATION SOURCES, AND STORE PERFORMANCE (RETAIL BUYING BEHAVIOR, BUYERS)

...When making a purchase decision, buyers for small retail organizations placed greater importance on product-related selection criteria (as opposed to vendor-related) and personal, internal sources of information. Findings suggested that buyers for small stores exhibit more involvement with customers and vendors than has been reported for buyers in previously published literature. Small retail store buyers were more concerned with product...

Detailed Description:

...methodology described herein. The forum may, for example, be a preestablished Internet web page where **sellers** 20 are able to **post** I 0 product information and the buyers 15 are able to order products. The multiple criteria buying scheme calls for a **seller** 20 to **post** a number of deals for a given product, which vary according to different offering criteria... used by the buyer in this particular deal search but will be provided to the **sellers**, so that they can be **alerted** of these additional criteria important to the buyer. The seller may opt to add to... application has not been approved, the processor I 00 proceeds to step 420 where the **seller** 20 is **informed** that their credit card application has not been approved and the seller 20 is provided... name which then provides the proper dealroom and password. Changes may be made by the **supplier**.

The option to have an OpenOffer Sheet **posted** on a regular interval and/or to have it programmed to reset the offer with ... pseudonyms, so that they can travel from dealroom to dealroom, while maintaining their anonymity from **reports** generated by other **suppliers** and buyers utilizing the OpenOffer Management system.

The option of automatically sending e-mail notification... from all OpenOffer sheets.

An OpenOffer Request Form enables a buyer on the system to **alert suppliers** of the product needed, category, quantity and when shipment is required. This allows - 29 the ... anonymous. The buyer can provide a pseudonym or

an e-mail address, so that the **supplier** can **notify** the buyer or **post** a message to the buyer.

An OpenOffer Request Summary is available by product category. For assist suppliers in adjustment of their deal room offers. The trend analysis system also provides **reports** on anonymous buyers and **sellers** via a pseudonym. The system can communicate between websites to rank suppliers based on differentbuyer OpenOfferRequest trends and supplier OpenOffer trends and communicated back to the buyers and **suppliers**.

33

Market Share System **Reports**

This aspect of the present invention (preferably implemented by software) is capable of providing a... the buyer accepts shipment over the course of the year on pre-determined dates the **supplier** can then **post** planned inventory in advance based on this baseloaded business. For instance, if the buyer agrees... racks of glass the first week of every month for the next six months, the **supplier** then **posts** the availability ..product offering among a couple of different OpenOffer Sheets and DealRooms. The system can also **alert** the **supplier** of the DealRoom with the highest price, historically, and where the excess volume should be... DealRoom is priced higher and is being accepted by the customer, the system will automatically **alert** the **supplier** of this happening and suggest additional volume be placed in that room. The program could also allow for the **supplier** to automatically **post** more product, say a specified amount, to the DealRoom with the highest price.

Auctions with Contingent Payments

Hansen, Robert G.

American Economic Review v75n4 pp: 862-865

Sep 1985

ISSN: 0002-8282 Journal Code: AER

Abstract:

...2. profit-share bidding in oil lease auctions. Under independent-preferences assumptions (and the additional condition that some variable correlated with the reservation value becomes observable ex post), both of these auction methods yield the seller more revenue than do cash bids. The examples are quite simple, and yet it is...
